**CARE INSTRUCTIONS**

Vacuum regularly to remove dust.

For stains:

1. Blot excess spills from material quickly as possible. Wipe with a damp cloth.
2. If stain persists, a mild soapy water mixture and damp cloth can be used to rub the stain.
3. If stain still persists, use a polyester carpet shampoo cleaner mixed with water, a damp cloth and apply to the affected area (or as per manufacturer's instructions). Blot well after each application.

Infection Control:

If there is a need for infection control, bleach can be used in accordance with CDC Cleaning and Disinfection instructions. The solution ratio should be 5 tablespoons of bleach to 1 Gallon of water or 4 teaspoons of bleach per quart of water. Spray apply the solution as a mist and then wipe off the surface moisture to help spread the bleach solution

Always try these methods in an inconspicuous place on the product prior to trying on a visible area.
