WHERE FUN AND FUNCTION CONNECT

ALINTA

FLOOR AND DESK SCREENS

FUNC.

Contract furniture doesn't have to be stuffy and uncreative. We know it can be stylish and modern and comfortable too. So we started making our own and never looked back.

FUNC.

ALINTA

Alinta has the screens you need for dividing personal and team spaces. Noisy environments don't stand a chance against our modern floor and desk screens. The vertical supports uphold sleek design, easy on the eyes, and never obtrusive. Alinta combines acoustic materials with wood accents seamlessly, while you work or play. High quality begets high quality, and creative work environments should be no exception.

DESIGNER PAUL JAMES

Paul James is an award winning designer and inventor with a reputation for both right and left-brain insight. He entered college to study engineering and emerged with degrees in math and economics. A graduate degree in industrial design led to leadership positions for several A list furniture companies. In 2002 he opened his own consultancy in Minneapolis specializing in product design and new venture start-ups. His process is equal parts head and hand, CAD and crayon, coffee and cocktail. Whether designing furniture, outdoor gear, or parametric fabrication systems, James' mantra is reason in every function and art in every detail.

AVAILABLE COLOURS AND FINISHES

Alinta is constructed from the highest quality polyethylene terephthalate or P.E.T. An ideal material for reducing ambient noise and sound within noisy environments.

Alinta is available with light or dark wood vertical supports and bases. A wood colour selection must be made when ordering.
