# FUNC.

Contract furniture doesn't have to be stuffy and uncreative. We know it can be stylish and modern and comfortable too. So we started making our own and never looked back.

# MALLEE

It's about opening up. Warm welcomes in open plan settings. It's not everyone's forte but it's certainly Mallee's, with floor and desk screens that humbly do their thing so that you can do yours. Creative environments work best when users have flexibility and order, and Mallee's bendable, wrap-around designs give maximum privacy control. Team spaces, personal spaces—you call the shots and shape your space and your time how you want. Place Mallee's modern design anywhere and prepare for sound-reduction that's so quiet, you never even have to think about it.

## DESIGNER PAUL JAMES

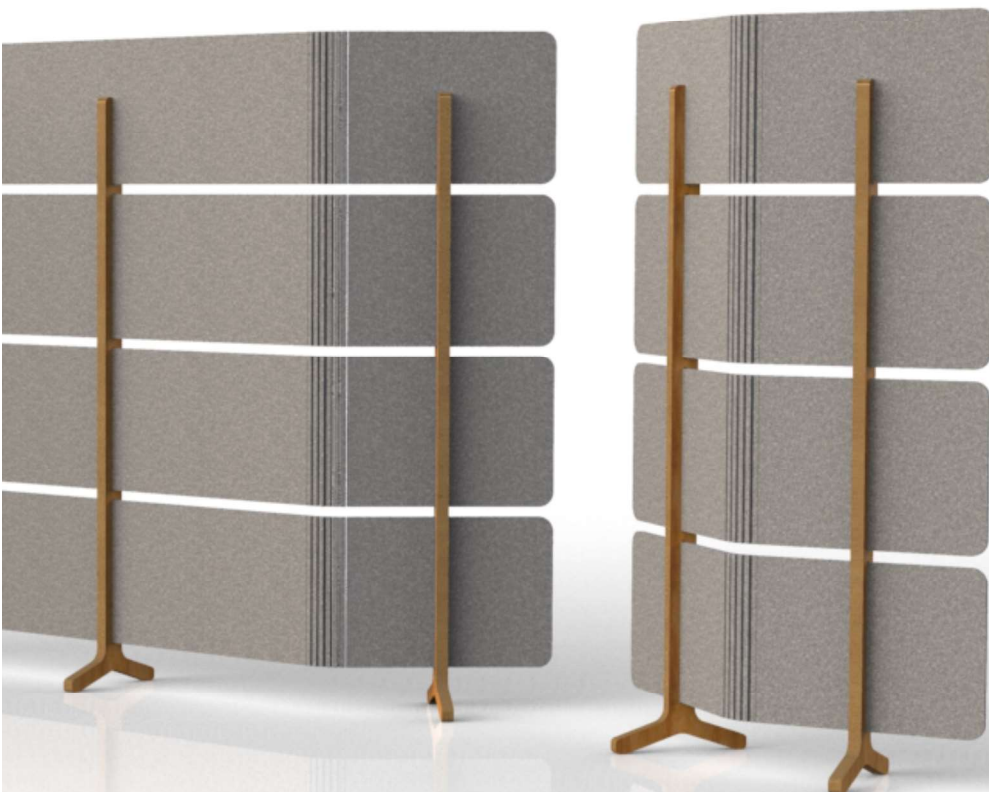

Paul James is an award winning designer and inventor with a reputation for both right and left-brain insight. He entered college to study engineering and emerged with degrees in math and economics. A graduate degree in industrial design led to leadership positions for several A list furniture companies. In 2002 he opened his own consultancy in Minneapolis specializing in product design and new venture start-ups. His process is equal parts head and hand, CAD and crayon, coffee and cocktail. Whether designing furniture, outdoor gear, or parametric fabrication systems, James' mantra is reason in every function and art in every detail.
