Contract furniture doesn't have to be stuffy and uncreative. We know it can be stylish and modern and comfortable too. So we started making our own and never looked back.

# MIRANG

Functionality with flair. With a poster board shelf and an integrated magnetic marker surface, it's hard not to want to be around this multifaceted product all the time. Mirang's unique portable "fold and go" design gives users full control. Quickly fold, flatten, and store when not in use. The integrated posting shelf, which supports flip charts and easel style poster boards, makes this floor screen an ideal tool for sharing ideas and connecting teams. All in the comfort of your creative workspace whenever you need.

## DESIGNER PAUL JAMES

Paul James is an award winning designer and inventor with a reputation for both right and left-brain insight. He entered college to study engineering and emerged with degrees in math and economics. A graduate degree in industrial design lead to leadership positions for several A list furniture companies. In 2002 he opened his own consultancy in Minneapolis specializing in product design and new venture start-ups. His process is equal parts head and hand, CAD and crayon, coffee and cocktail. Whether designing furniture, outdoor gear, or parametric fabrication systems, James' mantra is reason in every function and art in every detail.
