TIMBER+STICKS

Zintra® Acoustic Solutions absorb internal and external sound influences reducing the noise level in a room. Being able to converse freely and not having to fight to be heard, people feel more comfortable in the environment and experience better speech intelligibility. Zintra® offers all of these benefits in a range of colours and applications that are sure to enhance your space.

Zintra Timber and Sticks are the next exciting progression in this journey. Zintra Timber is a range of four timber "species" available in stock alongside our existing 20 plain colours and offering all the acoustic benefits of Zintra. Zintra Sticks is a range of fabricated acoustic sticks supplied ready to install as a complete system or as individual lengths.
