CARE INSTRUCTIONS

Remove spills immediately using damp, clean cloth.

Dab Zintra with a clean, soft white cloth dampened with a mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth.

Avoid using wax polishes, solvents or concentrated abrasives.

For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Dab gently.

Repeat using only a clean, water dampened cloth to remove bleach concentration, then pat dry with a lint free cloth.

Always test in an inconspicuous area first. If care instructions don't deliver the expected results, cease cleaning method immediately and contact Crown Surface Solutions for assistance.

ENVIRONMENTAL INFORMATION

Easily recycled through standard recycling channels
