

## BOX (SLEEPER)

### Zintra Baffles

Texture: 3

Lustre: 1

Transparency: 2

#### DESCRIPTION / FEATURES

Suspended box or sleeper-shaped baffles hung in perfectly spaced rows create these high performing baffles. The box shape feature not

only looks more substantial, it also increases the nrc rating by capturing sound within. Select the same shaped baffles or mix them up for added dimension.

Baresque's Zintra Acoustic Baffles are an innovative replacement to a mineral fibre lay system. Easy to assemble, easy to install and available in a large array of designs, baffles are ideally suited to large noisy spaces in educational institutions, shopping centres, restaurants and airports. Baffles use at least 1 sheet of Zintra Acoustic Panel and an NRC of 0.95.

Find out more about the Benefits of Zintra and its NRC rating on the DOWNLOAD tab.

<p><b>FABRICATION</b></p>	<p>Stanley knife if required</p>

**CARE INSTRUCTIONS**

Remove spills immediately using damp, clean cloth.

Dab Zintra with a clean, soft white cloth dampened with a mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth.

Avoid using wax polishes, solvents or concentrated abrasives.

For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Dab gently.

Repeat using only a clean, water dampened cloth to remove bleach concentration, then pat dry with a lint free cloth.

Always test in an inconspicuous area first. If care instructions don't deliver the expected results, cease cleaning method immediately and contact Crown Surface Solutions for assistance.

<b>ENVIRONMENTAL INFORMATION</b>	Easily recycled through standard recycling channels
