

PEAK
Zintra Blades

Texture: 3
Lustre: 1
Transparency: 1

DESCRIPTION / FEATURES	<p>These wall mounted systems showcase Zintra s™ flexible characteristics. Combining a dynamic aesthetic appeal and acoustic performance, blades are an easy-to-install solution. The increased surface area of the vertical blades results in greater absorption of sound compared to flat panels.</p> <p>Find out more about the Benefits of Zintra and its NRC rating on the DOWNLOAD tab.</p>

WET AREAS	No

CUSTOMISABLE	Size - YYes Zintra Colour - YYes Tube Colour - YYes Contact Crown Surface Solutions for details
SUPPLIED AS	Blades - cut to size and design Square Tube - notched No screws included
FABRICATION	Stanley knife if required

CARE INSTRUCTIONS

Remove spills immediately using damp, clean cloth.

Dab Zintra with a clean, soft white cloth dampened with a mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth.

Avoid using wax polishes, solvents or concentrated abrasives.

For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Dab gently. Repeat using only a clean, water dampened cloth to remove bleach concentration, then pat dry with a lint free cloth. If cleaning method is not achieving desired results, cease immediately and contact Crown Surface Solutions.
